THE CORE

Advanced Onion Inc. is a **DoD-focused SDVOSB** specializing in **identity services**, and the related core competencies of insider threat analytics, continuous evaluation, biometrics, and signature reduction. Through our work in these areas, we also have experience providing **IT support services, cybersecurity and information assurance, enterprise architecture, DevSecOps and application modernization**. We are committed to delivering unique and powerful solutions for our government customers.

MISSION

To provide our customers with highly skilled specialists delivering preeminent services and technologies that are scalable, effective, transparent and cost efficient.

VISION

To become a highly valued partner with Federal Government agencies to solve their toughest technology challenges.
